I'm a results-driven Full Stack Developer with expertise spanning both Web2 and Web3 ecosystems. Experienced in architecting and deploying scalable enterprise applications across e-commerce, SaaS, and digital marketing sectors, while also specializing in blockchain development and DeFi protocols.

EXPERIENCE

Web3Nova, Remote — *Full Stack Blockchain Developer*

DEC 2024 - PRESENT

Developed DeFi protocols managing over $10k in transactions and deployed smart contracts with zero security incidents at Web3 Nova. I also mentored junior developers and collaborated cross-functionally to deliver complex blockchain solutions.

Metaminds Agency, Remote — *Full Stack Developer*

JAN 2023 - DEC 2024

I led full-stack development of enterprise web applications across e-commerce, SaaS, and digital marketing sectors, building scalable solutions with Node.js, Express, React, and Next.js. I also architected robust backend APIs, implemented CI/CD pipelines, and collaborated with cross-functional teams including designers, product managers, and DevOps engineers.
